Approval of Minutes
(IAC-M-160, 20 July 1954)

1. Action: Approved

Transmittal of Information to
National Indications Center for
Watch Committee

(DCI Memorandum to NSC, circulated
to IAC 23 July; IAC-M-150, para. 3)

2. Mr. Dulles requested comments on his memorandum to the NSC for use in the NSC meeting on Thursday, 5 August. Admiral Espe presented, on behalf of the military services, suggested changes to paragraphs 3a and 3b. These changes, with minor modifications, were accepted.

The FBI representative dissented from the phrasing of paragraph 3b, which provides for making information fully available to the Watch Committee "without restriction because of source, policy, or operational sensitivity". The dissent was based on the fact that the phrasing did not allow discretionary authority to withhold or delay information in exceptional cases where source protection might be of overriding importance. Mr. Dulles stated that he would advise the NSC of the FBI dissent.

After a detailed discussion of the FBI objections, the following paragraph (3c) was added to the memorandum:

"When, in the opinion of an agency or department, overriding considerations affecting the national security exist which justify an exception to a. or b. above, the decision as to withholding or delaying the transmission of the information to the Watch Committee shall be referred to the President."

It was not indicated whether the addition of this paragraph would fully meet the FBI objections.

Mr. Dulles stated that a revised version of the memorandum, containing the changes in paragraphs 3a and 3b and the new paragraph 3c, would be circulated to the members before the NSC meeting. (This was done 4 August; see attached Suggested NSC Action for 5 August meeting.)

Secretary's Note

Terms of Reference for
Probable Warning of Soviet
Attack on the US as of Mid-1957
(SNIE 11-8-54)

This item was not considered by the IAC at the 3 August meeting. However, in view of the fact that the IAC representatives agreed to the terms of reference on 23 July, and since work on the contributions is progressing satisfactorily, this item will not again be placed on the agenda of the IAC unless requested by a member.

ANNEX to
IAC-M-161

SUGGESTED NSC ACTION, Item 3
5 August 1954

Transmittal of Information and Recommendation for
Further Action Concerning Warning Facilities of the
Intelligence Community

1. Noted the establishment, by Director of Central Intelligence Directive 1/2, of the Watch Committee of the Intelligence Advisory Committee with the following mission:

To provide earliest possible warning to the United States government of hostile action by the USSR, or its allies, which endanger the security of the United States.

2. Directed all appropriate departments and agencies of the government:

a. To make fully available to the IAC Watch Committee all information and intelligence pertinent to its mission and functions (as defined in DCID 1/2), without restriction because of source, policy or operational sensitivity.*

* Last phrase objected to by FBI

b. To keep the IAC Watch Committee informed concerning diplomatic, political, military, or other courses of action by the U.S., approved for immediate implementation or in process of execution, which (in the judgment of those departments and agencies)** might bring about military reaction or early hostile action by the USSR, or its allies, thus endangering the security of the U.S. This information is for the explicit and express use of the Watch Committee and those members of the NIC who need to know of it in order to perform their functions.

c. When, in the opinion of an agency or department, overriding considerations affecting the national security exist which justify an exception to a. or b. above, the decision as to withholding or delaying the transmission of the information to the Watch Committee shall be referred to the President.

** Suggested addition by Defense agencies
